notes
£70 spent in 2022/23 - Steve and Charles did the work - bought for £1 nominal sum
unsure of ownership - I think Cullum currently pays for bin bags and clears it once a week
installed in early 2020s - ownership uncertain - last replacement funded by grant from SGC
installed in 2021/22 - by unknown contractor - with grant
this needs to be cleaned - graffiti on outer walls
pads - that need replacing every 2 years (£75) plus batteries that need replacing every 3 years (£300)
bought in 2022/23 - probably depreciated by at least half by 2024/25 assuming linear depreciation and a linear relationship over 4 years
